

Technical Details Jura IMPRESSA C9 piano black

Key Technologies

Intelligent Pre Brew Aroma System (I.P.B.A.S.©)	■
Two cups in a single brewing operation	■
CLARIS plus filter cartridge (I.P.W.S.© compatible)	■
Variable brewing unit	5 – 16 g
Powerful conical grinder	6 Levels
High-performance pump	15 bar
Thermoblock heating system	■
Additional pre-ground coffee powder	■
Integrated rinsing/cleaning/descaling programme	■
Adjustable water hardness	■
Automatic recognition of filter change	■
Automatic recognition of maintenance programmes	■
Automatic recognition to fill beans	■
Power Switch	■

Key Features

Coffee grounds container (portions)	approx. 16
Connector System©	■
Professional Cappuccino Frother	accessory
Easy Cappuccino Frother	■
2-stage frothing nozzle	accessory
Separate hot water frother	■
One Touch Cappuccino Frother	■
Rotary Switch	■
Clear text display	■
Height-adjustable coffee spout	65 – 111 mm
Adjustable coffee strength	3 strengths
Adjustable amount of water	■
Integrated Cappuccino rinsing programme	■
Integrated Cappuccino cleaning programme	■

Steam and hot water function	■
Energy Save Mode (E.S.M.©)	■
One Touch Cappuccino, without moving cup	■
Dispensing height of Cappuccino frother	110 mm
Counter for cups dispensed	■
Indication of care status	■
Information menu	■
Stainless steel vacuum milk container	0.4 l
Cup tray	■

Programming

Programmable switch-on time	■
Programmable switch-off time	■
Programmable coffee strength	■
Programmable water quantity for coffee	■
Programmable hot water and steam portions	■
Programmable brewing temperature	2 strengths

Facts

Water tank capacity	1.9 l
Bean container with aroma preservation cover	200 g
Cable length	app. 1.1 m
Voltage	220 - 240 V AC
Power	1,450 W
Intensity of current	~ 6.0 A
Weight	9.6 kg
Dimensions (W x H x D)	28 x 34.5 x 43.4 cm
Tests	CB, PSB, SIRIM
Article number / colour	13344 / pianoblack
EAN-Code	7610917133444
Swiss Made	■

IMPRESSA

IF YOU LOVE COFFEE

Compact cappuccino competence

The IMPRESSA C9 is the most compact JURA automatic speciality coffee machine, and treats you to a perfect cappuccino at the touch of a button and without having to move the cup. The One Touch Cappuccino design makes this possible. A simple, logical operating syntax combined with a plain text display guides you directly to your personal coffee preferences.

Cappuccino at the touch of a button

Coffee specialities in their many different forms have long established themselves as a part of a chic lifestyle. And those featuring milk or milk froth are fast becoming increasingly popular. With its One Touch Cappuccino frothier the IMPRESSA C9 makes your coffee dreams come true at the touch of a button without moving the cup.

Simple operation

A plain text display, easily comprehensible symbols and the Rotary Switch make operation of the IMPRESSA C9 clear and simple.

Adjustable coffee spout height

The coffee spout height can be conveniently varied between 65 and 111 mm to suit all cup sizes, for example espresso and coffee cups. That prevents splashing on the machine and guarantees a sumptuously thick crema.

Stainless steel vacuum milk container

One of the standard features of the compact bean-to-cup speciality coffee machine is an insulated stainless steel container holding 0.40 liters of milk. Its design harmonizes perfectly with the clean lines of the IMPRESSA. It keeps milk chilled the whole day long and saves you constant trips to the refrigerator.

Ecologically sensitive - Energy Saving

To ensure that precious resources are not wasted, the JURA IMPRESSA C9 features the JURA Energy Saving Mode (E.S.M.©). This keeps power consumption low if the machine is not used for any length of time. Additionally automatic switch-off at any time between half an hour and five hours after the last coffee has been made can be programmed. The mains switch can be used to completely interrupt the power supply. The environment - and your wallet - will be grateful.
