

## Technical overview

### JURA standards

Variable brewing chamber	5 - 16 g
Intelligent Pre-Brew Aroma System (I.P.B.A.S.©)	■
Powder recognition for additional ground coffee	■
Hot water function	■
Cappuccino frother	■
Height-adjustable coffee spout	■
Multi-level conical grinder	■
CLARIS filter cartridge	■
High-performance pump	15 bar
Thermoblock heating system	■
Integrated rinsing, cleaning, descaling program	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■
Swiss made	■

### Specific advantages

TÜV certificate for user-friendly user manual	■
---	---

### Settings and programming options

Programmable amount of water	■
Amount of water can be adjusted for each preparation	■
Coffee strength can be adjusted for each preparation	■
Symbol display	■
Rotary Switch	■
Programmable switch-off time	■

### Design and materials

Height-adjustable coffee spout	65–111 mm
Connector System	■

### Accessories

Stainless steel vacuum milk container	optional
Cup warmer	optional
Cool Control	optional

### In figures

Water tank capacity 1.9 l	1.9 l
Coffee grounds container	approx. 16
Bean container with aroma cover	200 g
Cable length approx.	1.1 m
Voltage 230 V AC	230 V AC
Power	1,450 W
Stand-by power	0 W
Weight	9 kg
Dimensions (W x H x D)	28 x 34.5 x 41.5 cm
Article number / color	13528 / Piano Black
Checks	CE, S, PSB

SWISS  MADE

## Click & Drink

Select, press, enjoy. The IMPRESSA C5 is based on a simple one-switch philosophy. You can achieve perfect coffee results in a correspondingly short time, and to a standard that has already won over critical independent testers. Thanks to its compact design, it is easy to find a space for it anywhere, while its clear shapes and colours have an attractive appeal. Energy efficiency and enjoyment don't have to compete with one another. The patented Zero-Energy Switch disconnects the machine completely from the mains supply once coffee preparation has taken place.

### Attractive control philosophy

Thanks to the one-switch philosophy with the smart Rotary Switch and the easy-to-understand symbol display, you are just one touch of a button away from enjoying the perfect cup of coffee. Simply turn the switch to choose between coffee and espresso, one or two cups and three coffee strengths. Just click the control and seconds later you can be enjoying your drink.

### Eco - intelligence

Saving energy doesn't have to mean sacrificing enjoyment. When the machine is switched off, the patented JURA innovation, the 'Zero-Energy Switch', stops active coffee preparations once they are complete, ejects the coffee grounds and moves the brewing unit back into the starting position. The switch then disconnects the machine entirely from the electrical mains.

### Height-adjustable coffee spout

Whether it's a small espresso cup or a large one for your breakfast coffee, the height of the coffee spout can be adjusted continuously to between 65 and 111 mm and fits any size of cup.

### Connector System©

The Connector System© permits the use of various frothers. This includes the provided Easy Cappuccino Frother, which can be used to froth milk. There is also a special water nozzle, which provides an even jet of water. The steam frother and Professional Cappuccino Frother can also be connected to the Connector System© with ease.
